

International EMBO Workshop

Single Molecule Biophysics

From July 8th to 15th 1999 in Tours (France)

Invited Speakers:

S. Adams, P. Barbara, H. Berg,
D. Branton, C. Bustamante,
D. Chatenay, H. Gaub,
J. Gelles, Y. Goldman,
P. Hansma, F. Heslot,
R. Hochstrasser, E. Isacoff,

K. Kinosita, S. Lindsay, J. Marko,
M. Orrit, J. Prost, S. Quake,
R. Rigler, D. Rokhsar, G. Schenter,
T. Schmidt, P. Selvin,
S. Siegelbaum, F. Sigworth,
J. Spudich, R. Vale, W. Webb,
X. Xie, T. Yanagida, E. Yeung,

The purpose of this EMBO Workshop is to gather about 100 Biologists, Chemists and Physicists in the field of single molecule biophysics. They will learn from each other and exchange ideas and techniques involved in single molecule experiments (the tools of micromanipulation and visualization). Special emphasis will be put on DNA, molecular motors and enzymatic reactions.

For more information and registration (deadline April 25th):
